National Reach- Local Service

- Single point of contact provides precise communication channels for owners and reduces information lag.
- Extensive experience coordinating owner systems and fixtures in construction schedule for seamless turn-key construction.
- Vast experience with national vendors and owner procured materials systems.
- Weekly job progress reports with photos issued so owners don't have to be onsite to keep on top of progress.

"Nobody will care more about your construction project than us. At the end of the day, our clients' lives are better and easier because they trusted ABG to build for them"

PRECONSTRUCTION

With Atlas as a collaborator, projects can be value engineered and enter the construction phase more quickly and on budget.

FINISHING TOUCHES

Décor, furniture and store fixture installs make us your one stop shop for your entire project.

CONTRACTING

Atlas manages the entire project including staging, phasing and coordination of all items and tasks incorporated in a your build. From coordinating owner furnished items to phasing of vendor materials, ABG can manage your project from start to finish.

ABG Understands

• • •

- The food service industry is complex and volatile which is why having the understanding of how your construction project effects all of the different stakeholders is imperative. Atlas Building Group takes the impact that construction has on your customers, employees, franchisees and vendors seriously and we create scheduling, phasing and construction plans to construct efficiently and in the least obtrusive manner possible.

Projects Completed

Emerging Markets

Experience

Ground Up

Coordinating the complex refrigeration, energy management and communications systems required to operate food service locations are critical to a project's success. Atlas Building Group has experience as the general contractor in installing these systems, coordinating owner furnished items, and completing this type of infrastructure from the very beginning of the project with great success.

Additionally, Atlas knows that a successful project will include phasing plans from the very beginning of a project in order to complete critical tasks in time for suppliers and store operations to work cooperatively with the project to get to a new location grand opening.

Remodel

Working in an operational location has unique challenges associated with safety, construction progress, housekeeping and operations. Atlas Building Group's experience with retrofitting refrigeration systems, roof top unit additions, and remodeling all areas of restaurants makes us a unique contractor in the market. From remodeling restrooms to prep kitchens to seating areas, ABG's experience gives our clients a contractor that understands the challenges of working in occupied areas and how to overcome them.

At Atlas Building Group, our main goal is to construct a quality product on time and within budget. Because of this, we pride ourselves on being the most client responsive contractor in the business.
