Schnucks Markets

Challenges:

- Refrigerated Cases need replacement and relocation throughout existing grocery store.
- Interior pharmacy facility needs expansion for operations and medical storage.
- Additional cooking facilities needed for hot food service to customers.
- New finishes needed throughout without discouraging customers in operational grocery store.

Solutions:

- Worked with terrazzo expert to provide matching terrazzo look over trenches for new refrigerated case layouts.
- Creative scheduling reduces impact to user and customers for pharmacy expansion and trenching throughout store.
- Worked with owner to provide value engineering on premier décor package in first installation.

Results

- Expanded pharmacy operations including new casework and fixtures without pharmacy hours of operation being impacted.
- Reduced décor package costs by 30% from concept to installation achieving same design aesthetic.
- Provided construction and fixturing services for seamless installation of brand new décor without impact to store hours or operation.
